CGPA - 8.18

Shrine Vailankanni Senior Secondary School , Chennai — XII

2019

Percentage - 68%

Shrine Vailankanni Senior Secondary School , Chennai — X

2017

CGPA - 7.2

PROJECTS

Myocardial Infarction Prediction

- The primary objective of the project is to develop a reliable and accurate predictive model that can identify individuals who are at a high risk of experiencing a myocardial infarction, commonly known as a heart attack.
- The project aims to utilize advanced data analysis techniques and machine learning algorithms to leverage patient data and relevant risk factors to predict the likelihood of myocardial infarction occurrence within a specific time frame.

Product Store

- This project is a simple CRUD application built using the MERN stack. It allows users to perform the basic operations on a set of data. The application will have two main parts: a front-end built with React.js and a back-end using Node.js and Express.js. The data is stored in MongoDB, a NoSQL database.

SKILLS

JavaScript

HTML

CSS

React.js

Node.js

Express.js

SQL

MongoDB

CERTIFICATES

The Web Developer Bootcamp
(Udemy)

Programming with Python
(Internshala)

Data Analytics Internship at
Shiash Info Solutions

An Introduction to
Programming the Internet of
Things (Coursera)
